

Volunteer Management Support Program

Providing Support for your CHSP -funded volunteer programs

Volunteering SA&NT supports all CHSP-funded organisations with their volunteer programs. In particular, we support Culturally and Linguistically Diverse and Aboriginal Commonwealth Home Support volunteer programs. We help to establish, develop and support these programs and services.

- Free advertising for your volunteer roles
- Assistance with the preparation of your volunteer recruitment ads
- A referral service to help find potential volunteers and help them to apply for your volunteer roles
- Training for volunteers and volunteer managers

Helping you to achieve the NATIONAL STANDARDS FOR VOLUNTEER INVOLVEMENT

Our CHSP Team can assist your organisation to recognise those areas where you are meeting best practice, and identify opportunities for further improvement. We will work with you on a one-to-one basis to:

- Help promote and implement the National Standards within your organisation
- Conduct gap assessments
- Identify the training needs and resources you'll need to meet the standards
- Provide additional support and monitoring
- Help you construct an action plan
